

1 CLAIM: A new and distinct variety of peach tree,
2 substantially as illustrated and described, characterized by
3 its low winter chilling requirement, its large size, vigorous
4 upright growth and being a regular and productive bearer of
5 medium size, early maturing, white flesh, clingstone fruit
6 with a mild, sweet, sub-acid flavor and excellent eating
7 quality. The fruit is further characterized by having an
8 attractive orange-red skin color and, in comparison to the
9 low chilling variety 'Desertgold' Peach (non-patented), the
10 fruit has a more attractive red skin color, firmer flesh and
11 is approximately 27 days earlier in maturity.
